

ASSETPOOL

Asset Compliance & Verification Software

Real-time risk analysis, across all your Commercial Assets.

Retail • Logistics • Corporate & Industry • Manufacturing
Stadia • Workspace • Agriculture

WHY ASSETPOOL?

With the ever increasing cost of maintaining and replacing capital equipment it is vitally important for business managers and owners to know the operational readiness, safety preparedness and overall condition of their mobile assets:

AssetPool Replaces

- ⊗ Paper checklists
- ⊗ Carbon copy books
- ⊗ Manual Filing

Assetpool takes your company, its processes and filing, to the cloud!

Automating the process of generating reports in seconds and access to our live interactive risk dashboard enables you to effectively manage your Commercial Assets.

Individual assets can have multiple checklists.

Setting up your company uniquely by way of looking at what assets you own, operate, service or maintain, creating customised checklists for each asset and linking the asset and checklist/s will give you the ability to schedule your workforce into action via our online application.

HOW IT WORKS

Simple, Easy, Reliable.

Scan

Scan the barcode and select the appropriate checklist.

Inspect

A member of your team completes the checklist based on type of asset.

Measure

Asset risk is then calculated based on the outcome of the inspection.

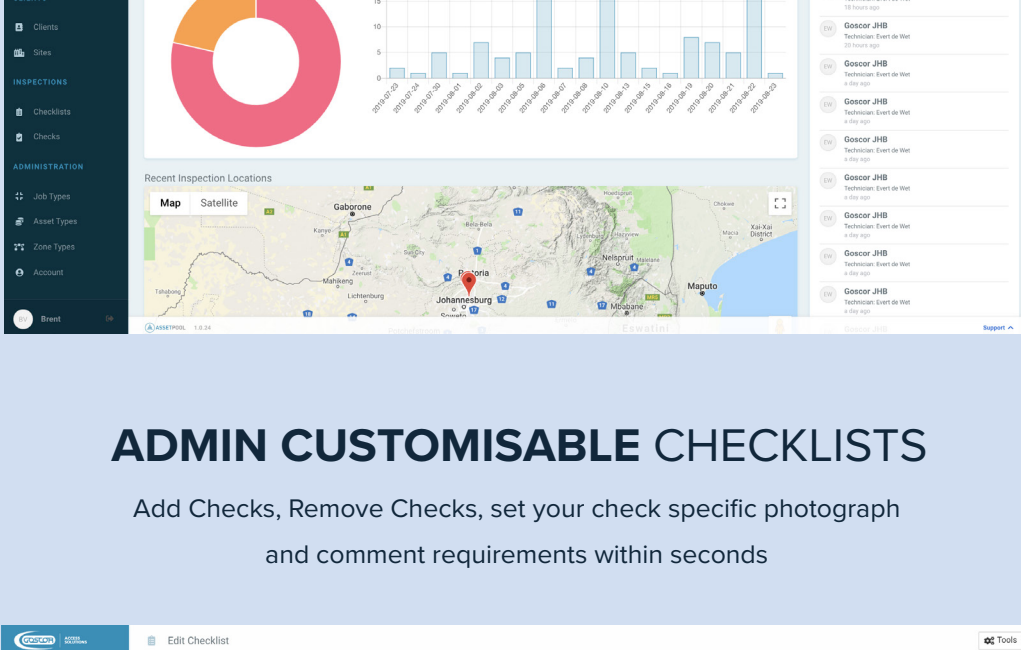

Report

Reports are immediately available to customers, including risk analysis.
